

# UNIQUE

BRINGING IDEAS TO LIFE

# PRODUCTS MADE PERSONAL

We take incredible care to embellish quality branded golf accessories & equipment with your brand, ensuring the best visibility as well as comfort and usability.

It's our product, made personal to you.

## THE CHOICE OF CHAMPIONS

Level 4 has built an enviable reputation for supplying high quality branded merchandise for some of the biggest sporting events in golf.

INTRODUCTION

# TAILORED TO YOUR VISION

By definition, Unique by Level 4 aims to create a variety of bespoke merchandise, tailored to your requirements. This guide will take you through the process and create a simple journey from enquiry to the delivery of product.

At Level 4, we have a wealth of resource at our disposal including first-class creative and commercial teams who have the knowledge and attention to detail that is required to execute the ordering and origination process efficiently.

PRODUCTION

# QUALITY FIRST

Our established network of factories across the Far East have worked with Level 4 and some of the biggest brands in golf for many years and appreciate our demands for quality and innovation. This is now backed up by our own QC based in mainland China who takes personal responsibility for ensuring all goods leave the production facilities to the required exacting standards.

We have a simple premise here at Level 4. Anything is possible to make your products personal. Read on to find out more..

ORDER FLOW

# CREATIVE PROCESSES

01

## ORDER ENQUIRY

The first step in the process is to establish your requirements. We have a wealth of experience with previous projects to draw on that can set the scene for your next order and plenty of inspiration to help you choose the right product and finish.

Your area retail consultant will be able to scope your project with you and create an order form that captures all the information related to your unique brassware project.

02

## COST ESTIMATION

Once we have collated the information for your project, we estimate the costs for production and provide you with the details of this. We do not usually start the proofing and specification process until the costs have been agreed between you and your area retail consultant.

03

## PROOF & SPECIFICATION

At this stage of the process we bring your ideas to life by producing artwork – or even a series of ideas if this has been agreed between you and your area retail consultant. At this stage, we may also need to carry out any logo or club crest re-drawing if the artwork you have supplied us is not production ready\*.

Once we've finished our proofing and specification, we will provide you with a PDF for you to approve before going into production.

04

## SUBMISSION

Providing you are happy with the proof and specification, we are then able to send your project into production. At this point we will be able to give a more accurate lead time, but typically we estimate 45 days from submission to delivery.

\*Whether or not your artwork is production ready is at the discretion of the Level 4 team. We can only accept the following file formats for bespoke products: .ai, .eps, .svg and .pdf (providing it has been produced using vector drawing software).

# FINISHING

## SOFT ENAMEL

Soft enamel has recessed enamel. The enamel clings to the edges and recesses below the metal die line and gives the soft enamel signature 'bumpy' feel when you run your finger over the top.

## HARD ENAMEL

Hard enamel is polished flat. The enamel is added before the plating is added and then polished flat to the same level as the metal die lines.

## EMBROIDERY

Embroidery is the process of turning graphic design into needle and thread for application to fabric. Designs can be simple, single colour or multi-colour intricate pieces of art. If the fabric can be laid flat then it can be embroidered.

## EMBOSSING

Embossing creates an indent in the material which adds depth and impact to a design. Ideal for use on thicker substrate such as leather, and leatherette PU.

GEMSTONE 26.2 DISC

26.2mm single sided available in a mix of purple, pink and clear colours only.
